

A diagram of a semi-elliptical arch. The arch is shaded with diagonal lines. A vertical dashed line represents the axis of symmetry. The width of the base is labeled as 6. The height of the arch is labeled as 5. The angle between the base and the side of the arch is labeled as 30° .

Technical drawing of a rectangular plate. The overall dimensions are 80 (width) and 20 (height). A hole with a diameter of $\varnothing 9$ is located on the left side, centered vertically. The distance from the left edge to the center of the hole is 9.5. A slot with a width of 10 is located on the left side, extending from the top edge to the center of the hole. The slot is centered horizontally relative to the hole.
